

School support staff play an important role in ensuring students are learning in a safe and supportive learning environment. They can foster positive, trusting relationships with students and improve the school climate by encouraging parent and family involvement in education. Because students connect with school support staff on many occasions throughout the school day, support staff can model positive behavior and send positive messages to students .

We believe St. Joseph Catholic School has some of the best support staff and we appreciate everything they do!

Sara Keeley
Secretary
