

We have had an exciting start to the 2017-2018 school year! Students (3rd through 8th grade), as well as their families and friends, viewed the once in a lifetime solar eclipse in totality from the school parking lot.

Research shows that when parents and friends are involved in their children's education from home, students do better in school. Additionally, when parents and friends are involved with the school, children go farther and the schools are better.

St. Joseph Parents, Teachers and Friends' (PTF) main objective is to serve as a supportive and fundraising body of the school. This is done by (1) organizing and supporting various school functions, (2) facilitating communications among the administration and PTF, (3) promoting the school within the community by attesting to the academic and spiritual opportunities and (4) to pray for God's blessings for the school.

Parents and friends can be involved in St. Joseph School by joining the PTF committee at the monthly meeting, held the second Tuesday of every month.
